Gary tells Steve about biogas

NSF supports Steve

CHANGE students visit Germany

Ideas come back to Wisconsin

Themes adapted to Africa

Ugandan biogas movement grows

An educational program develops and a company forms

COMPLEX PROBLEMS

Waste management

Transportation

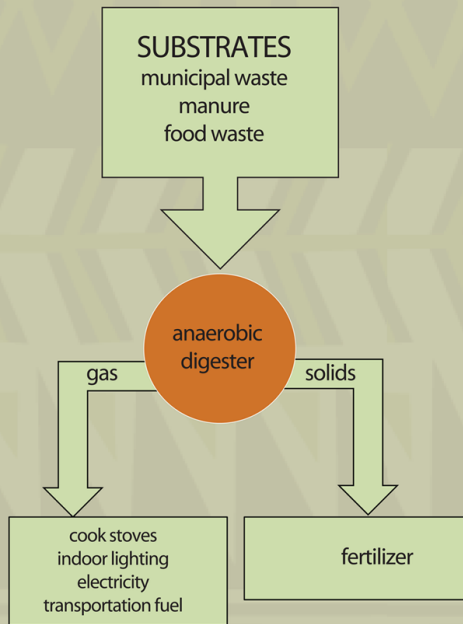

Conservation

Energy Security

BIOGAS: AN INTEGRATED SOLUTION?

AN URBAN BUSINESS

THE CHALLENGES AHEAD

What motivates technology adoption?

How should the project sites be selected?

Who should be the key partners?

How do we ensure sustainability?

How do we measure social and environmental impacts?

OUR PARTNERS AND SUPPORTERS

These projects are made possible with generous funding from: NSF-IGERT, UW-Madison Nelson Institute for Environmental Studies, Wisconsin Bioenergy Institute, the Global Stewards Society, the Swedish International Development Agency, and the United States Military Academy.

Thanks to our many supporters, most especially Green Heat Makerere University Center for Research in Energy and Energy Conservation, and the Kasiisi School Project

NSF-IGERT trainees involved in this work include: Aleia McCord, Sarah Stefanos, and Steve Plachinski

A RURAL EDUCATION PROGRAM
